Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 27 September 2004 has been entered.

STATEMENT OF REASONS FOR ALLOWANCE

The claims now expressly recite that the “splitting means is an all-pass having a time constant of C/gm” and expressly defines elements “C” and “gm”. The cited prior art is not seen to have such an operating characteristic nor is it seen that it would have been obvious to modify such to have this operation. Further, while the parent Patent applied in the Double Patenting rejection discloses a similar circuit, the claims do not expressly recite this language concerning the “splitting means” being “an all-pass having a time constant of C/gm”. Similarly, it would not have been obvious to modify the parent Patent to have this operation. Thus, the case is in condition for allowance.
